Georgia	1
Ethiopia	1
Austria	1
Romania	1
Croatia	1

Number of exhibitors: 264

Number of countries: 14

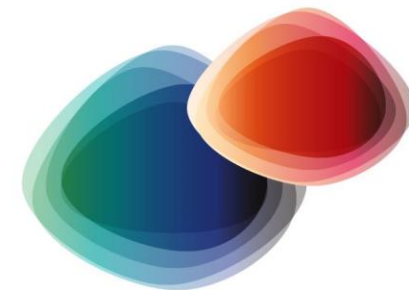

Share of exhibitors from Czech Republic and abroad

Pre-Christmas sales event

Exhibitors traditionally achieve good sales results at the November editions of Minerals Brno. November 2024 was also marked by successful business in Hall B at the Brno Exhibition Centre. The event included, among other things, creative workshops, educational activities for children and entertainment for the whole family.

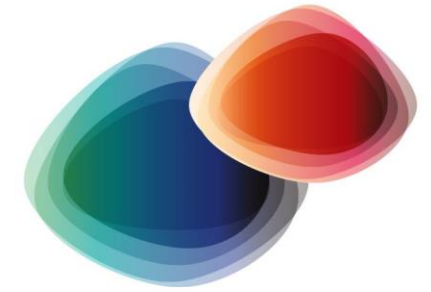

International fame of the accompanying exhibition

The November Minerals Brno 2024 included an exhibition of Agates of the Podkrkonoší Region and important foreign localities. The exhibition gathered about 1000 samples from all over the world and attracted foreign collectors. The exhibition was prepared by Luděk Kráčmar, Radek Votava and Alexej Medikus, pictured here with renowned Austrian collector Hannes Holzmann.

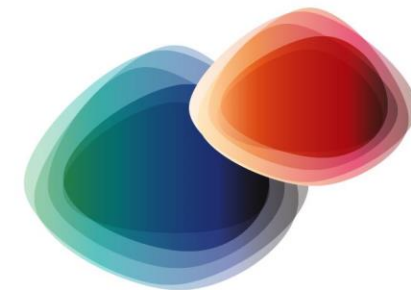

Coinciding with the *Life!* festival

November Minerals Brno 2024 coincided with the Life! festival at the Brno Exhibition Centre. This coincidence brought visitors who do not normally visit mineral exhibitions to Hall B. It was thus possible to expand the ranks of those interested in inanimate nature and to attract new visitors to the next editions.

In May 2025 we will celebrate the
50th year of the MINERALS BRNO
exhibition
